Environmental Policy

UTEC StarNet are an industry leading UK-based company that provides a wide range of surveying, inspection and design services worldwide to the Telecommunication, Oil and Gas, Nuclear and Renewables sectors.

UTEC StarNet is committed to the protection and enhancement of the environment. Improving our overall environmental performance in all our operations is a major and continuing priority for us.

UTEC StarNet is committed to:

Continually improving our environmental performance by:

- Making more efficient use of energy
- Minimising waste production and attempting to recycle waste where possible
- Using water as efficiently as possible throughout the business

In order to achieve these goals we will:

- Meet current and future legislative requirements, especially in regard to waste management, land contamination, chemicals usage and spillage control
- Routinely monitor and evaluate the environmental impacts
- Endeavour to prevent pollution to water, land & air
- Make employees aware of our Environmental Policy and their role in implementing it
- Encourage staff to contribute suggestions which may improve our environmental performance
- Conduct regular monitoring and environmental reviews of our progress to ensure compliance with this policy and its goals
- Ensure that all workers are competent to do their work, and give them appropriate training
- Provide resources required to achieve these goals.
- Set and monitor Environmental Objectives
- Commit to UTECs Corporate Objectives

To achieve environmental improvement throughout our operations, we are committed to establishing an Environmental Management System to meet the requirements of the international standard ISO 14001: 2004 and set environmental objectives and targets, which are regularly reviewed and revised.

The Managing Director is responsible for meeting the claims of this policy for our company.
